To Increase Sales and Reduce Expense—Telephone

UNSETTLED conditions should not discourage the efficient sales manager. His problem is to increase sales and reduce selling costs, but the *telephone* helps solve the problem. For example:

A large wholesale house recently felt the necessity of reducing the cost of marketing their goods. The Telephone Company suggested *selling by telephone*. It pointed out the fact that the salesmen who secure the best results when they call upon the buyer personally will also secure the best results *over the telephone*. It showed how these expert salesmen could interview at least twenty times as many buyers by *telephone* as they could see in person. A campaign was started which was at once successful and is being continued with increasing results.

You can fit the *telephone* into *your* sales campaign in such a way that you can increase your sales and reduce your selling expense.

Information will be gladly furnished at any of our business offices as to the best way to adapt the *telephone* to your selling campaign.

Lengthen Your Stay In Vacation Land

By Telephone

BEFORE *you,* Mr. Business Man, going to spend unnecessary time in the hot, dusty city this summer, when *the telephone* enables you to stay out in the open and get the greatest amount of pleasure and relaxation?

It is a simple matter to telephone your office in the city, give directions and decide important matters. Then you can enjoy the rest of the day with a mind free from worry about business.

If you let the telephone help, you can lengthen your stay in Vacation Land and get the greater and more lasting benefits of a real vacation.

NEW YORK TELEPHONE COMPANY

Telephone Helps

The announcement of a "telephone sale" stimulates ACTION among buyers who read your advertisements.

"TELEPHONE SALES" ARE BUSINESS BUILDERS

SELECT an article you can sell by telephone. Give it a reasonable sales price. Decide upon a definite day. Advertise a "special telephone sale." Then check the results.

This is the best way we know to demonstrate to you the value of *linking up your telephone with your advertising.*

This plan has proved successful for many progressive concerns. One firm, for example, sold *286 pairs of gloves in one day* over the telephone after advertising a "telephone sale."

Possibly you can adapt the "telephone sale" to *your* business, and by backing up your advertising with careful attention to all telephone orders, you can win a desirable class of buyers to your store.

Why not plan a "telephone sale" in YOUR business?
